Platform Statement

3TV Dubai is a global creator media platform built around a network of city-based chapters that support independent creators, original programming, and collaborative production.

Founded in Dubai, the platform connects regional creator communities with a broader international media ecosystem.

By combining localized production hubs with global distribution, 3TV Dubai enables creators to develop content within a structured network that can scale across multiple cities and cultures.

The platform begins with Dubai as its headquarters and expands through carefully selected chapters in major global cities.

Dubai as Global Headquarters

3TV Dubai is headquartered in Dubai, one of the world's leading international hubs for media, technology, and creative industries.

The city's position as a global crossroads for culture, commerce, and innovation makes it a natural foundation for a platform designed to connect creators and audiences across regions.

From this base, 3TV Dubai expands through a network of international chapters that support local creator communities while remaining connected to a shared global ecosystem.

About 3TV Dubai

3TV Dubai is global creator media platform designed to support independent creators, original programming, & city-based media chapters around the world.

The platform connects creators, producers, and audiences through localized production hubs beginning in Dubai and expanding globally.

3TV Dubai combines media production, creator networks, and digital distribution into a scalable international ecosystem.

Platform Overview

3TV Dubai operates as a global network of city-based chapters that enable creators to collaborate, develop programming, and distribute media content within a shared international platform.

The model allows local creative communities to grow within a structured global network while maintaining strong regional identity.

Each chapter supports creators through collaboration opportunities, production coordination, and access to the broader 3TV ecosystem.

3TV Dubai operates on a proprietary digital infrastructure layer designed to support creator verification, media distribution, and platform-level coordination across chapters.
